## Case Management Return to work

*Your life is our life's work.*

# Connecting the care, communication and return to work

Return to work  
Case management

## What can you expect?

- Support from a dedicated Registered Nurse Case Manager
- Better, faster communication with Mercy health professionals when you have an injured-on-the-job employee
- One convenient, dedicated phone number to call when you need information regarding a specific work-related injury
- Updates and patient status reports available via email, phone, or case consults
- A faxed copy of the Emergency Trauma Center record on request
- Follow up with employers regarding no-show or non-compliant patients
- Notification regarding upcoming surgeries, MRIs, PET scans, etc.
- Enhanced, coordinated communication with physician clinics, emergency trauma centers, urgent cares and therapy offices

## Return to work case manager

This is a position created to support our worker's compensation clients by providing a dedicated Mercy team member to help facilitate communication between our employer partners and Mercy Hospital Springfield, physicians and therapists.

## Our goal

To enhance communication and expedite the flow of information and services.

To learn more about this service to enhance your workers' compensation health care team, call **417-841-0255**.
